The trail starts at the Penzion Rejvíz Guest House, where you can park. From there, follow the yellow tourist sign in the direction of Bublavý potok (Bublavý Stream). Then continue along the fascine pavement to the Velké mechové jezírko (Great Moss Lake). You can return the same way back to the guest house or continue along the blue route towards Jeseník. The Malé mechové jezírko (Small Moss Lake) has already overgrown and is inaccessible to visitors. The peat bog lies at an altitude of 750 – 790 m above sea level and it was formed during the Postglacial Period (about 7,000 years ago).
