

Dlouhé stráně Dam

 **6,4 km**

 **60 km**

 **4,5 h**

 **791 m**

From Kouty nad Desnou, you can go there on foot or you can be taken by a cable car. The upper reservoir of the artificially created pumped-storage hydroelectric power plant, located at an altitude of 1350 m above sea level, reaches a depth of 26 m and is a technical sight of interest. With a pre-arranged tour, it is possible to look inside the power plant.
