A relatively difficult road leads to Koberstein Castle (912 m above sea level). Following the red route from Vrbno pod Pradědem to Drakov, you will reach the “Pod Koberštejnem” crossroad and from there, follow the green tourist route directly to the ruins. You can see Starý Rejvív and neighbouring Poland from the stone lookout behind the castle from the 13th century. It is possible to approach the ruins by car (from Horní Údolí or Rejvív).
