 **2,5 h**  
 **265 m**

At the very top of Bukový kopec hill in the Hanušovická vrchovina (Hanušovice Highlands), at an altitude of 625 m above sea level, there is a 22 m high Bukovka lookout tower.

From the lookout tower there is a beautiful view of the Desná Valley, the Jeseník Mountains ridge, the Rychlebské hory (Rychlebské Mountains) and the Králický Sněžník massif. On the ground floor of the lookout tower there is a shelter for tourists, which can be used to relax or hide from bad weather.

The shortest way to the lookout tower is along the yellow sing route from the information centre in Rapotín (3.2 km).
